I hail from Lucknow, Uttar Pradesh. I am a diligent and conscientious person. I am a student of science stream and since school days I have been good in academics, that being continued in college as well. As a person, I am a believer of Karma i.e. focus on the deed as that will always come back to you in future in some way or another. So I take it as goal to do my job as thoroughly as I can and give the due respect it deserves, doesn't matter if it's a small or a big task. As an employee, I believe I am a good team player and can also manage the tasks well that are given individually to me. Other than that, I love dogs and might plan on setting up an animal shelter in the future, which will include other animals too. Right now I am looking for role switch from a tech to more managerial roles. I wish to pursue the MBA program to develop my knowledge, managerial skills as well as gain a 360degree approach and perception of different fields. Also to overcome the shortcomings in my personality and use this degree as a stepping stone for better job profiles and bigger opportunities in life.
